Linear lighting family

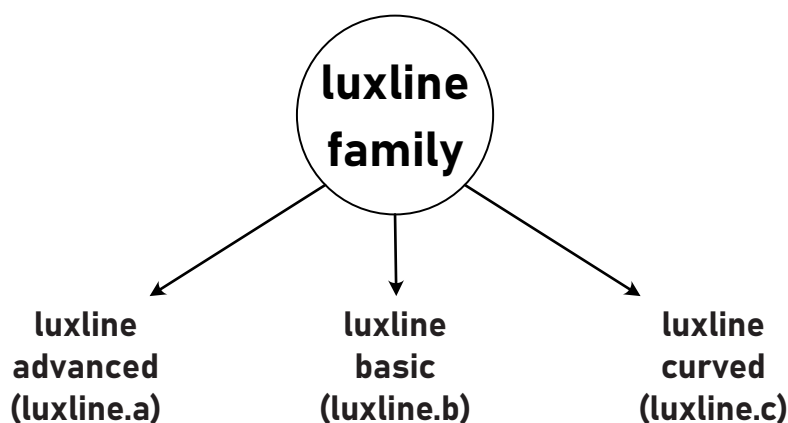

limitless linear lighting

Our luxline family are a set of highly customized linear lighting available in many different mounting options.

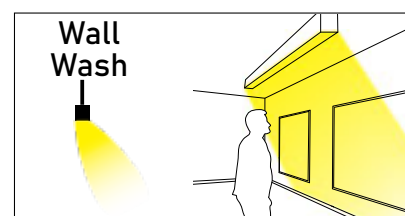

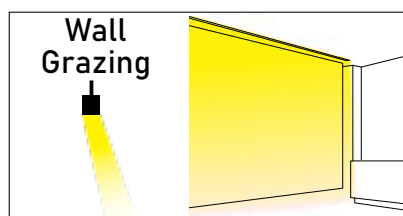

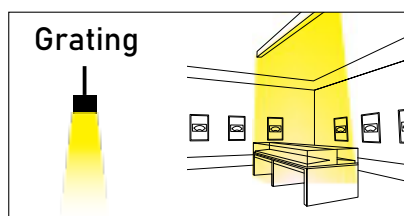

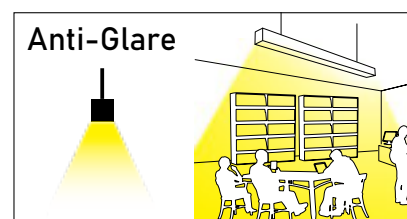

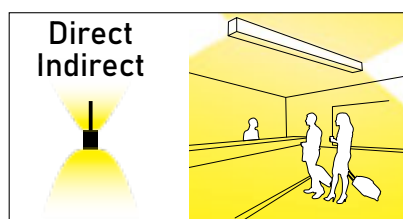

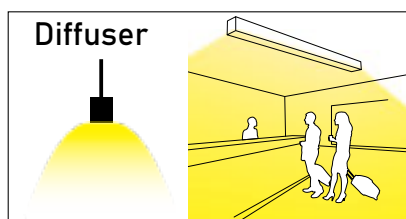

Equipped with multiple optical designs (diffuser, direct-indirect, anti glare, grating, grazing) and many internal-external accessories, luxline.a/b/c are your ideal companion for all your linear lighting needs.

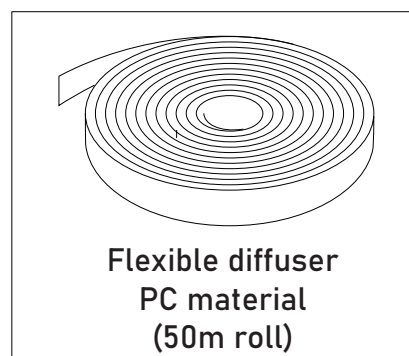

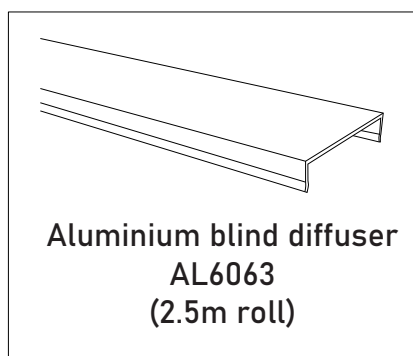

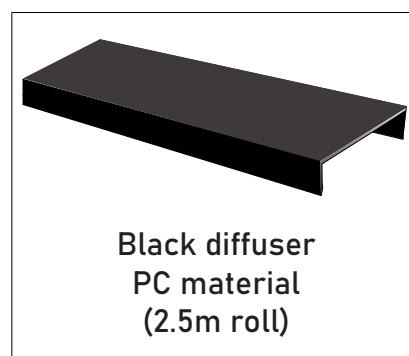

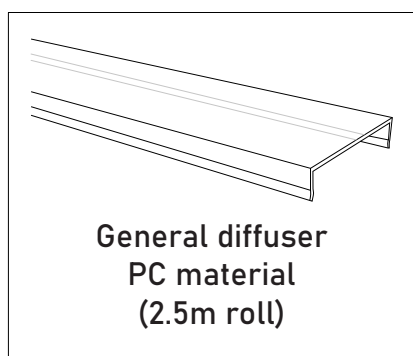

Sub divided into 3 families:

- **luxline advanced (luxline.a)**
luxline.a is armed with multiple optical designs for different applications that makes your product selection easier.
- **luxline basic (luxline.b)**
luxline.a's little brother with all the kinks but no optical support. (only diffusion)
- **luxline curved (luxline.c)**
luxline.c takes our family to the next level. Looking for more than the normal standard straight luminaires? Use luxline.c to create non-standard shapes to your hearts desire.

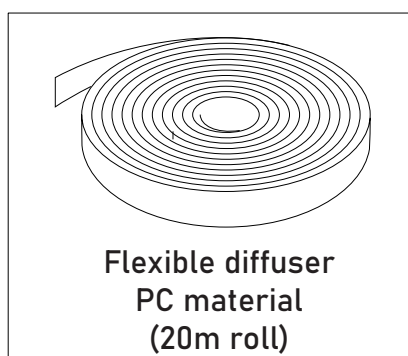

luxline.advanced - optical

luxline.basic - optical

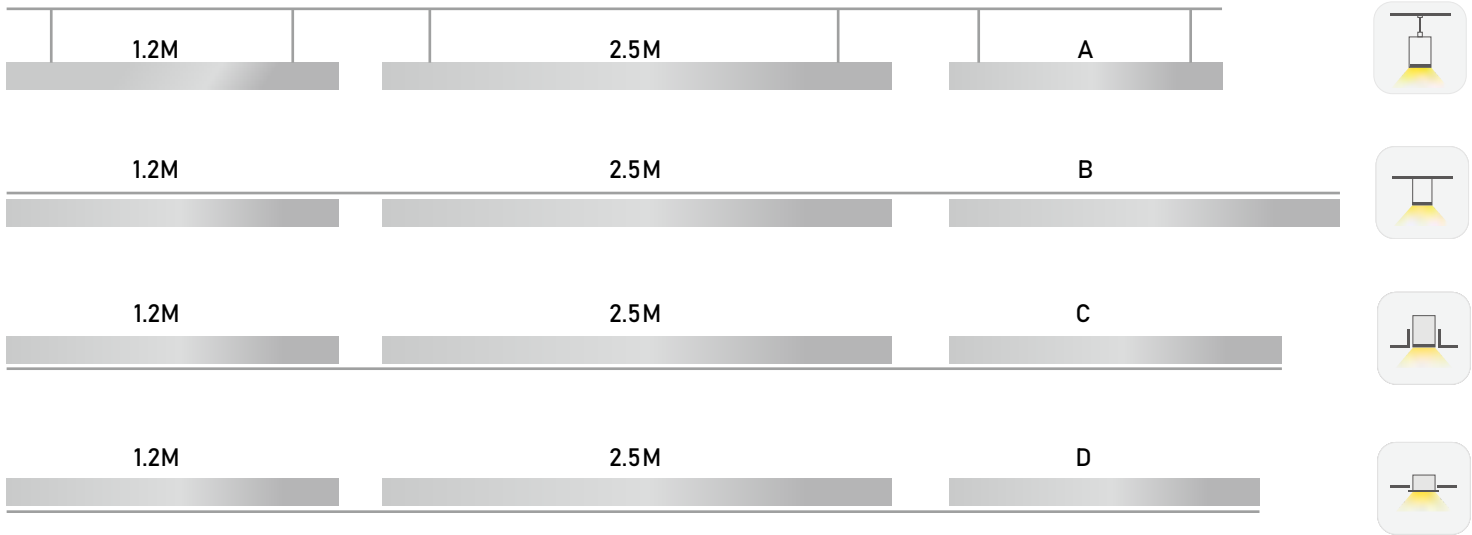

luxline.curved - for both inner and outer linears

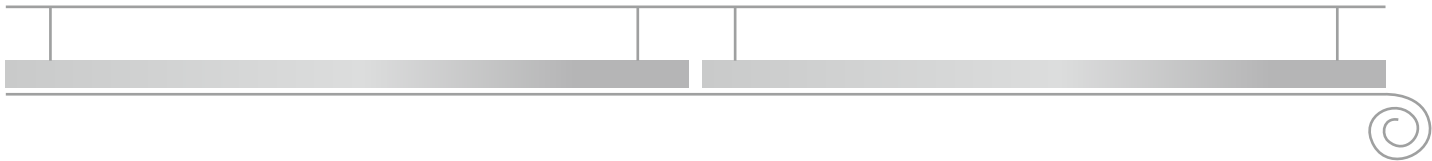

Continuity

We have a linear for all types of mounting — be it suspended, recessed, trimless or surface mounted. The linears can be connected using the connectors below or using long length diffusers.

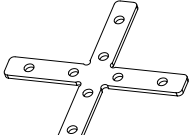

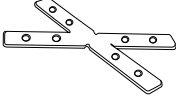

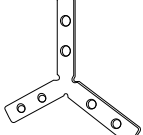

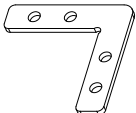

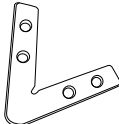

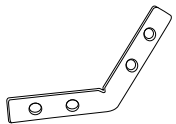

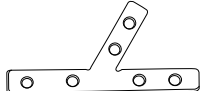

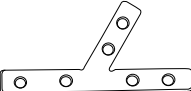

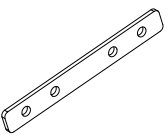

It is possible to have ultra long connections with flexible diffuser that enables us to have no light leakage. (~ 50m roll)

luxline standard connection accessories

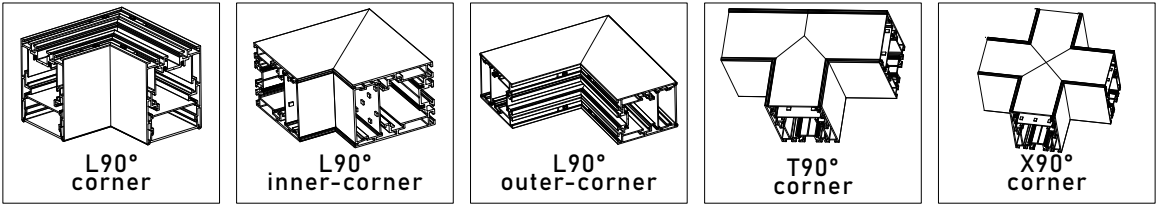

Accessory compatibility varies with each linear.
Some accessories may not be compatible with chosen luxline.model.

Horizontal connectors (xH, where x = X, Y, L, T)

 90° XH connector	 60°+120° XH connector	 120° YH connector	 90° LH connector	 60° LH connector	 120° LH connector
